Melissa - Can you let me know when you have a contact? I will continue to give Lisa and Libby's contact information until I hear back from you with the new contact.

Thanks,
Justyn

We are just setting up the JIC and no prepared to take media calls on the ground yet. For now it is best to refer them to the appropriate EPA region.

Hi Justyn, I'm introducing you to Melissa Harrison, EPA Press Secretary, in our Area Command. Melissa, can help you with that. Thanks. Joan

Hi Joan - Can you provide me with a phone number for media to call if they have questions? We are only answering questions about our additional releases from Navajo Dam. Everything else we have told reporters they need to contact EPA. I originally had Lisa McClain-Vanderpool 303-312-6077, then I received Libby Faulk's email faulk.libby@epa.gov. If Libby is still the contact can I have her phone number?

Thanks,

Justyn

Thanks Marc. We would also like to know if it would be accurate to say that due to dilution, we expect no impacts to Lake Powell water quality from the release. Do you concur?

Joan, as you may already know, the increased release from Navajo was in response to a request from the San Juan River Basin Recovery Implementation Program (SJRIP) and we have not yet received any feedback that I am aware of, but I'll see what I can find out and we can discuss in the morning. Marc

Thanks Marc. I'm copying the Area Commander, EPA's David Ostrander. At this point, I wonder if we can get a few people together to talk about your assessment of the effectiveness of your releases from Navajo in mitigating impacts of the plume? I think we would be interested in any assessment you've done and any conclusions you can draw. Joan

Joan, looks like I'm you're POC for Reclamation here in Durango, let me know how I can be of assistance. I will defer to our public affairs specialist Justyn Hock 970-248-0625 for any media related responsibilities, but please let us know what we can do.

-Thanks

I think doing the reply and looping everyone in is the way to go. Thanks for coordinating.

Lori, thanks again for all of the great assistance this weekend. We hope to get your agencies (BOR and USGS) plugged in directly to our Unified Command in Durango. What's the best way to make that happen?
